

Water Act 2000 – Form W2F058

ABN 51 242 471 577

Stock or domestic allowance notification

Purpose of the form

This form is to be used by a holder of a metered entitlement to notify the department of an allowance for water taken for stock or domestic purposes.

This is the volume of water to be taken for stock or domestic purposes through a meter that is also used to take water under an entitlement administered by the department. If this notification is accepted, it will continue until the entitlement holder notifies the department of a change to their stock or domestic requirements, or they cease to be the holder of the metered entitlement.

the metered entitlement.								
Part A Applicant details								
Specify the full names of all holders of the metered entitlement:								
If the applicant is a corporation, supply the ACN:								
Attention (optional) (e.g. Principal, Secretary, Managing Director, etc.):								
Street address:								
Mailing address:								
Main contact	for this notification							
The contact details provided will be used by the department for the purpose of communications under the <i>Water Act 2000</i> . The department may be required or authorised by legislation to disclose your information to other third parties.								
Full name:								
Preferred phone:			Alternative phone:					
Email:								
the purpose of pr		these purpo	ses disclosure to	other third p	arties may b	ot 2000 and will be used by the department for e required by or of the department. The d by legislation.		
	Notification ref.		Name:					
	Client ref.		Position:			Office		
OFFICE USE ONLY	File ref.	Signati	ıre:			Stamp Only		
	Date / / Init Nominated stock or domestic allowance ML				Initials			

Reference number:	Part B Existing water entitlement details							
Graduater licence Graduater assignment Interim water allocation	State the reference number and type of water entitlement relating to the stock or domestic allowance.							
Specify the lot on plan numbers for the land where the water will be used.	Reference numbe	er:		☐ Water licence ☐ Seasonal water assignment				
Lot Plan Lot	Part C Description of land where stock or domestic water will be used							
Part D Stock or domestic requirements – calculation Calculate your annual stock or domestic requirements in kilolitres using the annual consumption figures specified in the boxes below. If you calculate your stock or domestic requirements using annual consumption figures greater than the figures specified, you must provide full written details. When calculating annual consumption figures for garden watering, you should refer to the relevant water plan for your area to locate the maximum garden watering area. The area stated in your relevant plan (hectares) can be multiplied by 1000 to convert to a kilolitres (kL) figure. If you are unsure of the maximum garden watering area for your water plan area, contact your local departmental office. Complete box A for your stock requirements and box B for your domestic requirements. Add your annual stock or domestic requirements (A+B) to calculate your total nominated annual stock or domestic requirements in box C. Convert this amount to megalitres (ML) by dividing (C) by 1000 and insert in box D. This will be your total stock or domestic allowance to be taken through a meter (D). Note: 1kL = 1000 litres. Stock Annual consumption (kL/head) Stock numbers Sub-total Cattle and horses 20 kL Cattle and horses 20 kL Cher (specify):	Specify the lot on p	plan numbers for the	land where the wa	ter will be used.
